

THE GARDENS OF KOBELSBURG

An ode to the plant world,
which we cultivate with love every day.
Seasoned as needed
by the worlds of lakes and meat.
The fruit of a long journey sculpted over the years,
here is our impromptu interpretation
of ephemeral flavours,
a cuisine of instinct and moment
capturing the wonders of my garden on the fly.
From fragile delicacy to earthy power,
today I offer you my personal
and poetic vision, among the 350 plants
in our Kobelsberg gardens
in this month.
